

# Caching Feelings { ❤ }

Breanna, Dan, Dingyuan, Heejeong, Rahul

# Vision

Caching Feelings is more than just an application; it's a transformative experience for computer science enthusiasts. We want to foster a safe environment where like-minded individuals can connect. The ultimate goal is to facilitate lasting, meaningful relationships that will eventually extend beyond the comforts of the digital realm.

**Let's cut to the chase, what is this app really all about?**

**3 words.....**

# Un-Singling Students

...Isn't that 2 words?

## How you ask?

- ★ Go beyond the superficial left and right swipes (and the paywall)
- ★ Make sure you're on the same "planet" as your future soulmate
- ★ Create an inside first approach to online dating
- ★ Hardest task?? Get comp sci students out of the house for a bit

# Stakeholders

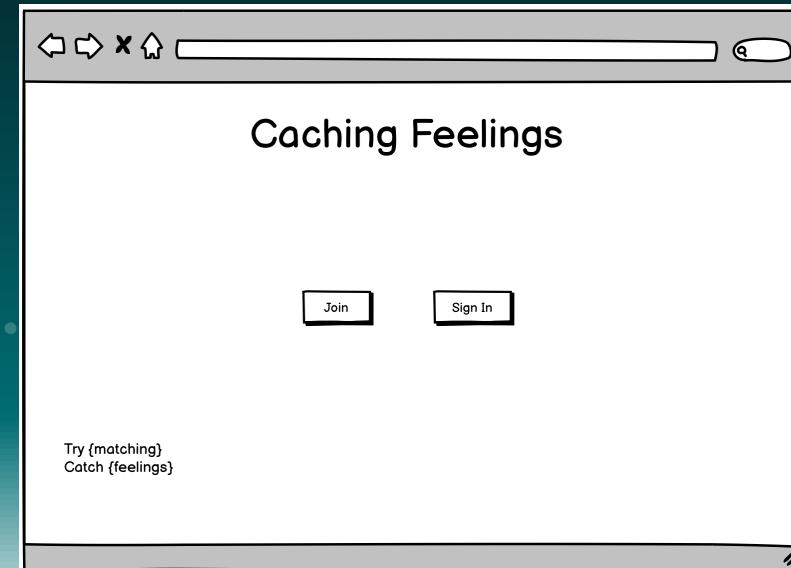

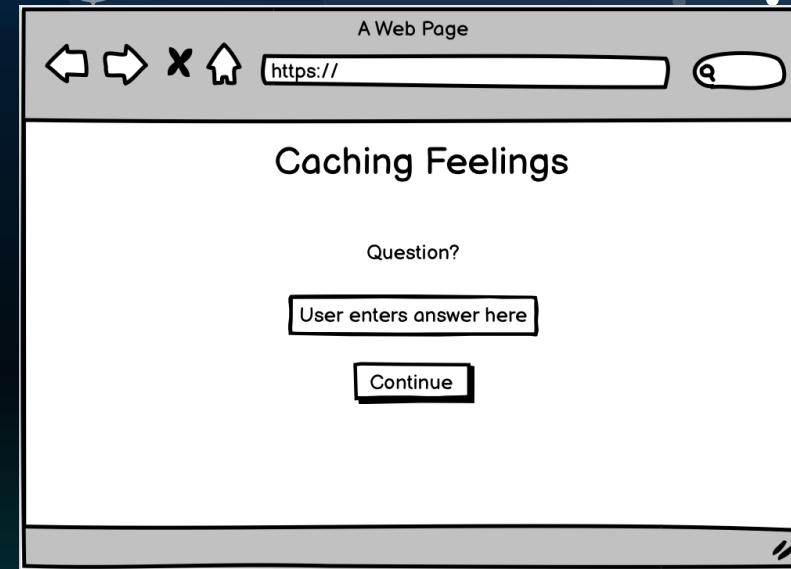

- ★ Students (mostly comp sci)
- ★ CS Alumni
- ★ Professors (why not?)
- ★ TAs
- ★ Working professionals in the tech industry

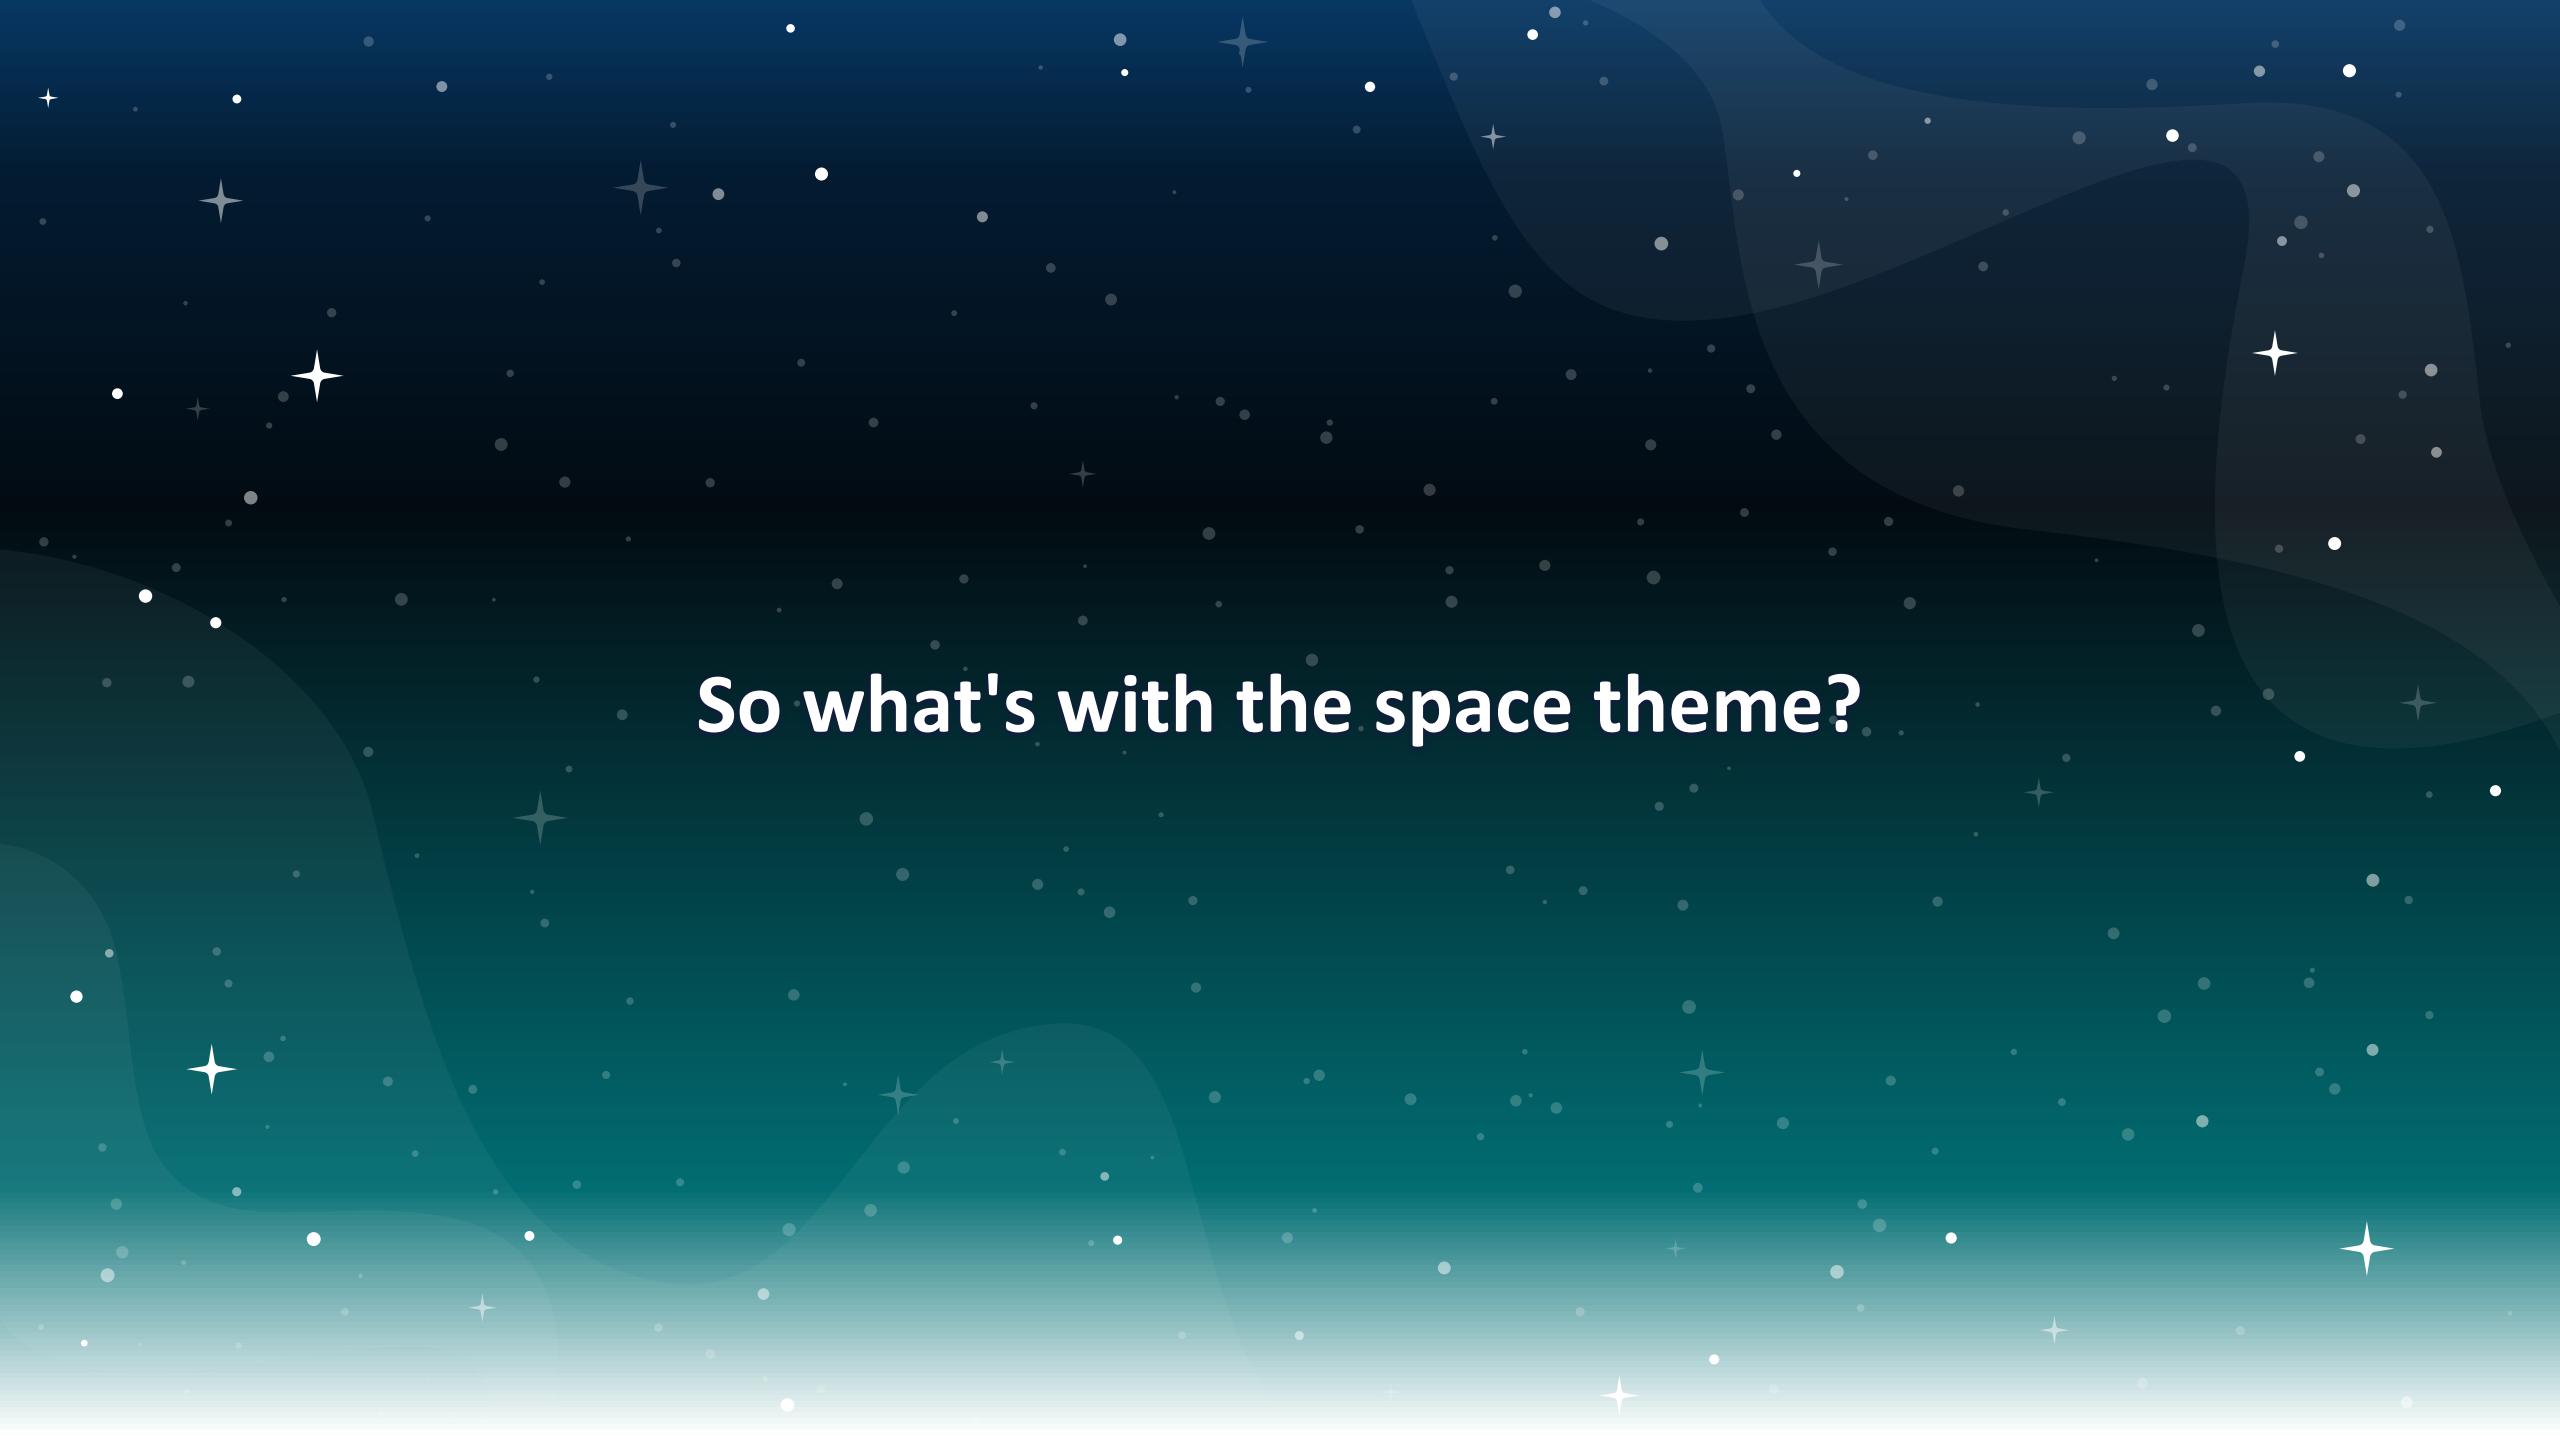

# Features

- ★ Account Creation
- ★ User Matching
- ★ Interaction with Matches
- ★ Community Discovery
- ★ Icebreakers
- ★ Secure Authentication

# Account Creation

- ★ Sign up for an account
- ★ Manage the account
- ★ Access the account
- ★ Share interests and dating preferences
- ★ Add and manage profile photos .

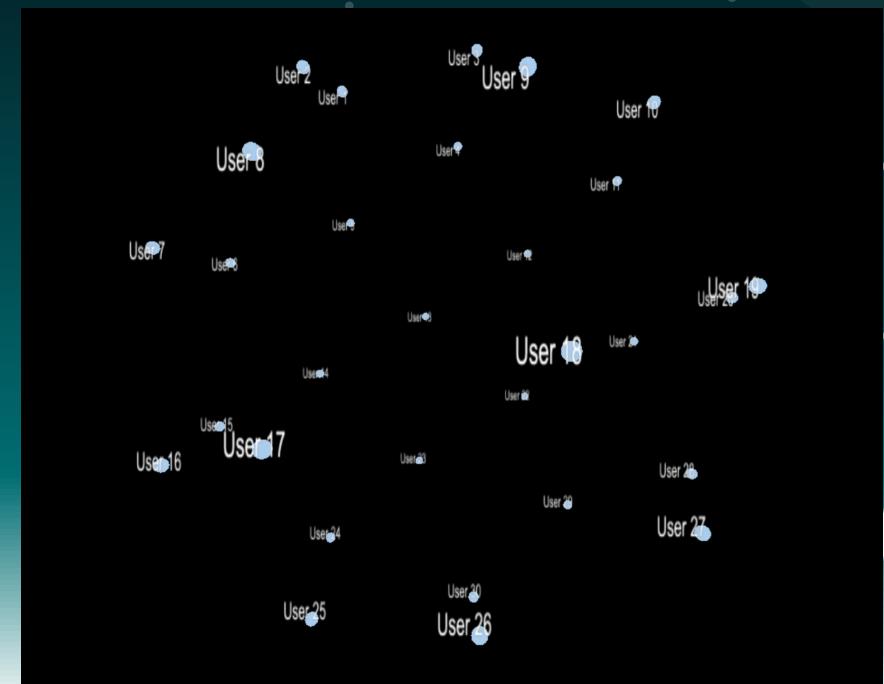

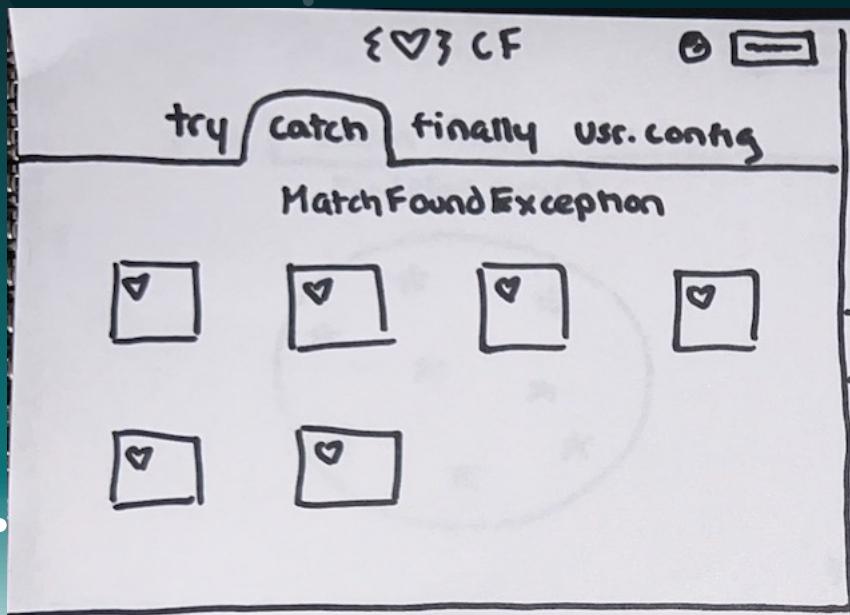

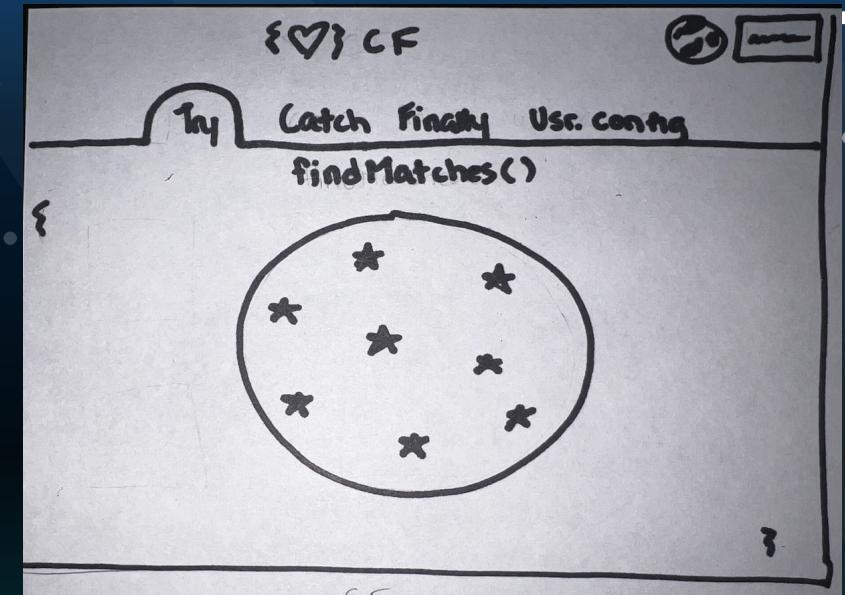

**So what's with the space theme?**

# Meet the soul·sphere...

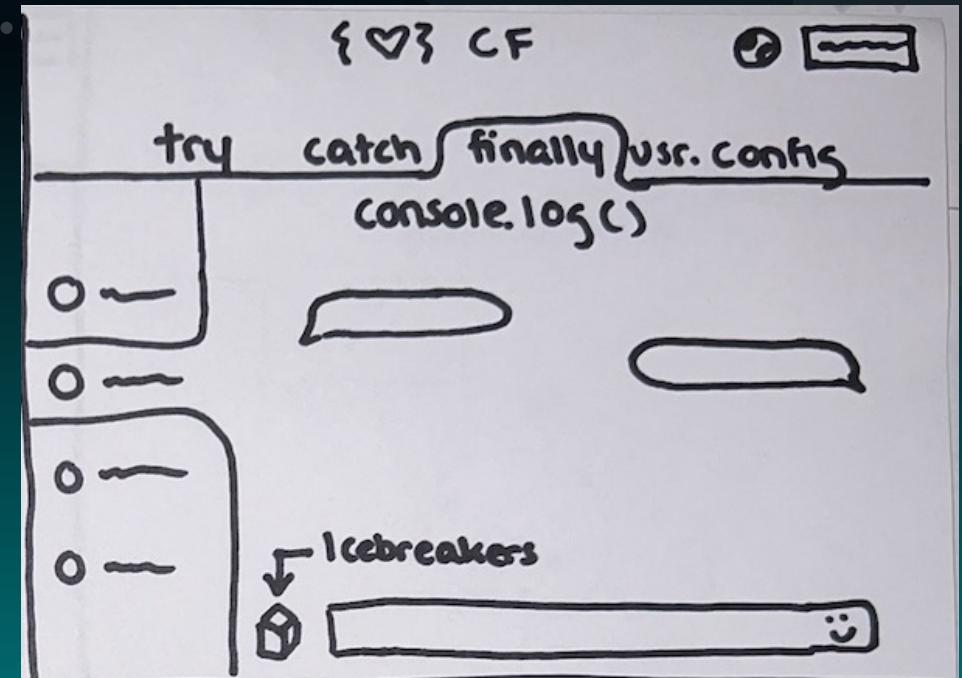

# User Matching

- ★ Find other users that match their interests and preferences
- ★ View all the users that they matched with
- ★ See other users that they match with that are nearby
- ★ Favourite matches

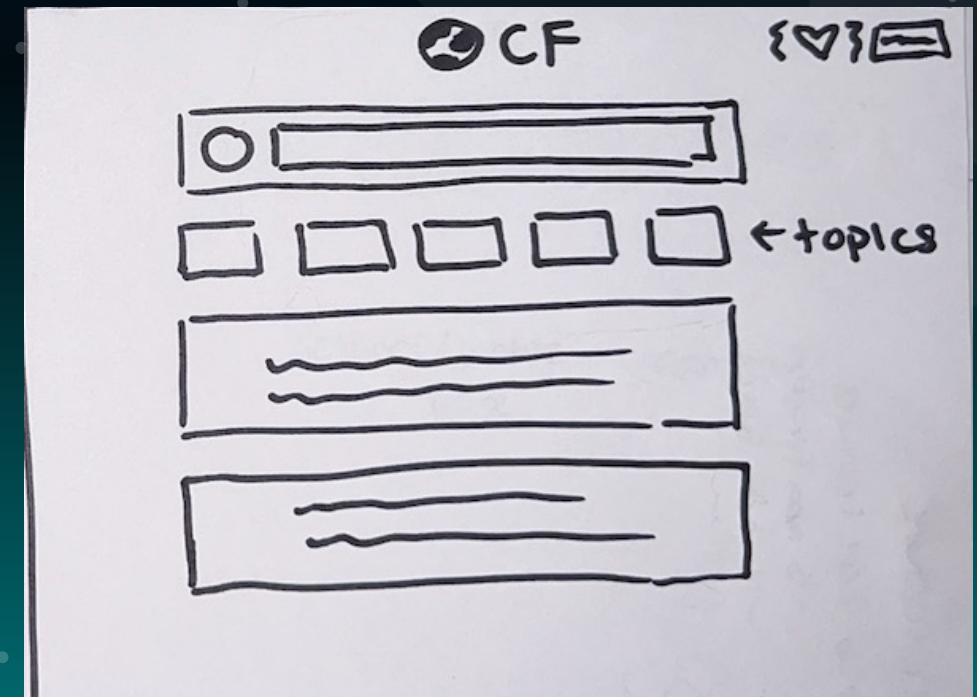

# Interaction with Matches

- ★ Send and receive messages
- ★ Send burn after reading message
- ★ View all chats with different users
- ★ Block matches
- ★ Send images in messages

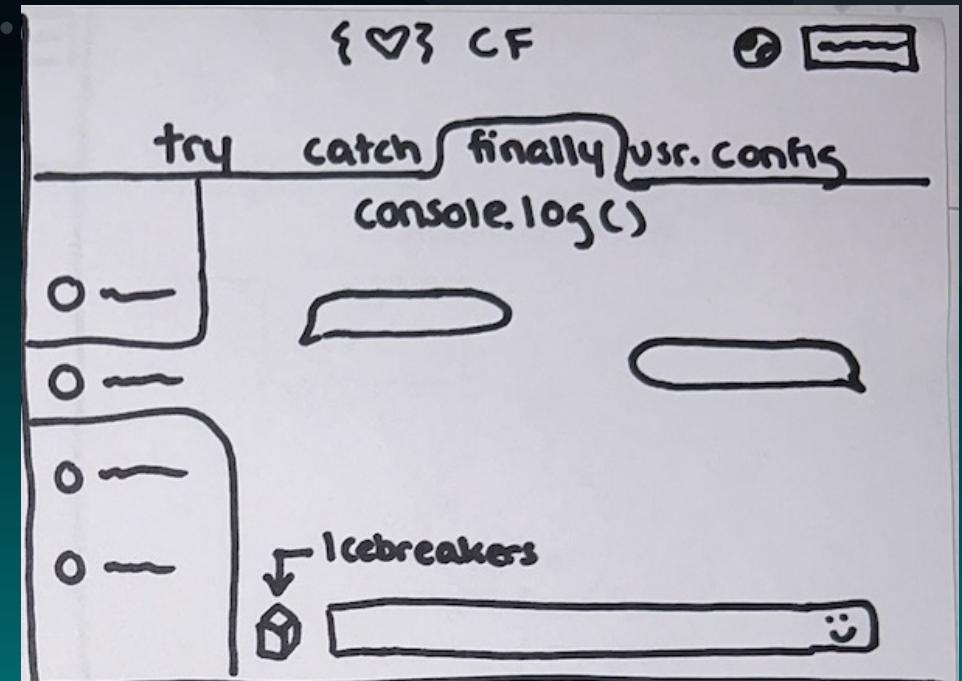

# Community Discovery

- ★ Feel adventurous and want to explore something new?
- ★ Hop onto a new planet and discover what's out there
- ★ Perhaps you'll find a new planet you belong on?

# Icebreakers

- ★ Don't know what to say? We got you covered
- ★. Allow the Cupid Bot to add the spark needed to start this conversation
- ★ Don't worry, we won't give you pick-up lines like "If you were written in C, you'd have a pointer to my heart"  
... unless you want them ;)

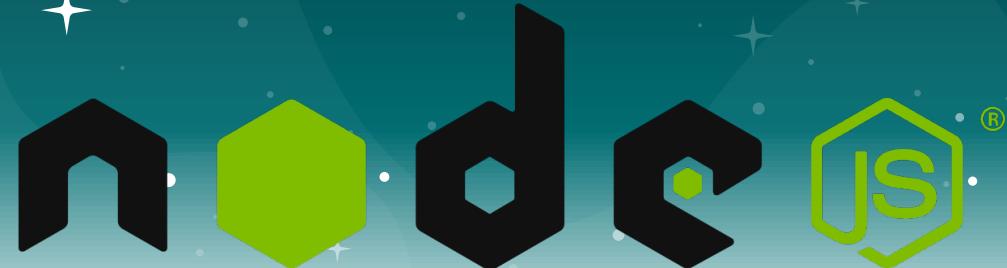

# Secure Authentication

- ★ Rest assured we are not going to (more like can't) text your matches...
- ★ Our app never stores user password
- ★ Authentication is handled through a 3rd party api (JSON Web Token)
